

*Her Camp PALS experience has given us as a family more hope and promise that there is and will be opportunities for the future for her that we never thought she would have. For that is truly the priceless gift.*

– PALS Parent

*To be honest with you, I did not find Camp PALS, Camp PALS found me... I was meant to be at Camp PALS.*

– PALS Camper

*I want people to know that there is hope that this world could be different. That we could live in a world that loves openly and deeply and fiercely. That we could be... capable of loving all people despite all differences. I know that it is possible – because for a week, it was my reality.*

– PALS Volunteer

# join the PALS family

## CAMP

Our campers with Down syndrome return year after year because PALS creates an opportunity for independence, provides incredibly fun activities, builds lasting friendships, and takes place in a community that celebrates the value and joy in every moment.

## VOLUNTEER

PALS Programs are possible because of our hundreds of passionate volunteers. Volunteers join PALS to give back, but leave with a greater understanding of themselves and a renewed hope in the future of our world.

## DONATE

Donors and sponsors ensure low tuition for campers and provide financial aid for families in need. In 2018, PALS provided over \$140,000 in financial aid. Help us make PALS a reality for every young adult with Down syndrome. Visit [palsprograms.org/donate](http://palsprograms.org/donate)
